Our Mission

We help young people stay safe online with simple, practical advice.

A simple guide to help you (youngsters) stay safe online

- Understanding Online Threats
- What we want to educate you about

Do's and Dont's

- ✓ Check the source
- ✓ Use strong, passwords that are unique for each account
- ✓ Turn on 2FA
- ✓ Keep your phone updated
- ✓ Think before you click - take a moment to assess
- ✓ Report suspicious messages to your friends and family
- ✓ Back up your data
- ✓ Use official app stores for downloading software

- ! Connect to public Wi-Fi without a VPN
- ! Click or download random
- ! Share personal info with strangers
- ! Use the same password everywhere
- ! Ignore browser warnings
- ! Trust pop-ups

Put Your Knowledge to the Test

Curious to learn more?

Your ultimate resource for online safety is just a scan away!

Our website features dynamic short videos for quick tips and an interactive Kahoot! Quiz to challenge your skills, and a comprehensive digital brochure to empower your online decisions.

scan the Qr-code and test your online safety skills

What a wrong click can do

- ! Malware & Ransomware Downloads
- ! Identity Theft & Account Compromise
- ! Phishing Attacks
- ! Spyware Activation
- ! Financial Loss

Oh Snap, I Clicked! What now?

- ✓ Don't Panic
- ✓ Turn off WiFi / mobile data
- ✓ Change Your Passwords
- ✓ Run antivirus scan
- ✓ Tell someone you trust / IT help
- ✓ Warn your friends
- ✓ Try to learn from this - so it doesn't happen again
